OFFICE OF THE INSPECTOR GENERAL OF EDUCATION IN MYSORE,

No 1990/136

~~Bangalore~~ Mysore, 3 September 1896

Edn 14 of 96

From

H. J BHABHA Esq

Inspector General of Education in Mysore,

To

The Secretary to the Government of Mysore
in the Revenue & General Depts,
Bangalore

SIR,

I have the honour to forward herewith Docket No 429 C dated 26 August 1896 from the Principal of the College of Engineering Madras, enclosing an application from K Srinivasengar a Mysore State Scholar now studying in the College Srinivasengar is likely to complete successfully the theoretical course for the B E Degree Examination in December 1896 He desires very much to take up the practical course of Mechanical Engineering for two years in the Perambur Railway Workshops As nearly all the Mysore State Scholars have

hitherto passed through the practical course of Civil and not Mechanical Engineering, I recommend that Srinivasiengar may be allowed to take up the practical course of Mechanical Engineering, and that Government may be pleased to grant him a subsistence allowance of Re 25 a month for a period of two years commencing from January 1897 He is prepared to pay the fee of Re 500 charged for working as an apprentice in the Perambur Workshops himself

I have the honour to be,
Sir,
Your most obedient servant,

H J Bhabha
Inspector General.

J R V

I have the honor to be,
Sir
Your most obedient servant,

Insp Gen of Education

3

Subd to Secy

As the applicant undertakes to pay the premium himself, and only wants a subsistence allowance I think this might be sanctioned. Some consideration is due for the bent of mind of our Scholars, which in this case leads the applicant to Mechanical Engineering.

9/9

Subd to Secy

Mechanical Engineering are I believe more in request than Civil Engineers. The present application deserves favourable consideration. The additional cost involved is not much as the pecuniary aid he has hitherto received from Government is only Rs 25 a month.

Canvey sanction if the Govt approve the notice after 1 year

Letter from Mysore Government Scholarship-holder K Srinivasa Ayyangar 2740 Engineer student at this College, is forwarded to the Inspector General of Education, Mysore, with the remark that the Compulsory period of practical training for mechanical Engineer students at the Madras Railway Locomotive Workshops has been reduced to one year to Equalise it with the period fixed for Civil Engineer students on works. At the same time Mechanical Engineer students are recommended to go through a practical Course of two years, and the fee payable to the Locomotive Superintendent is the same whether the Course extends over one year or two years

The Inspector-General of Education
Mysore

Through The Principal
College of Engineering
Madras-

Sir,

I undersigned Mysore Scholar at the Colleg
of Engineering Madras, undergoing my third year's
Theoretical training at the said College beg to bring th
following circumstances to your kind consideration

The end of this year 1896 completes my theoretica
Course at the College and after the final Examination
in December 1896, I shall have to begin my practical
training as a Civil or Mechanical Engineer As you
know the practical training for Students of Civil
Engineering Branch will be for a period of one year
on works under some Engineer in one of the Divisions
of the Madras Presidency, and in the case of Students
of the Mechanical Branch the Compulsory training
as required by the College is, for a period of one year at the
Locomotive workshop Perambore on the payment of
Rs 500/ or gratis at the P W workshop Royapuram - The
Students entering the Perambore workshop are worked
there for 2½ (or) 3 years - The students of the College of Engineering
that took up the Mechanical Branch in the previous
years spent two years at the workshop The apprentice
fee that has to be paid to the workshop Perambore is
the same whether the Student stays at the workshop
for one year or more than one One year's training
at such a big workshop, where there are so many
opportunities for handling so many machines will
be of small benefit Compared with that derived
by remaining in the Shop for at least 2 years On the
request made by one, Mr. Ramathanarayana Rao,
the Mysore Scholar, who passed out of the College last
year, as a Civil Engineer, for the grant of the Same

vide 01

much he had to pay to the workshop for undergoing training as a mechanical Engineer, The Governme of Mysore was not pleased to grant him the sum, but only granted him a scholarship of Rs 25/ per m for two year to undergo training as a civil Engineer

I am very desirous of being trained as a mechanical Engineer and to learn work at the wor shop Perambore for at least a period of 2 years - Though I can somehow manage to pay the apprenti fee to the workshop, I will be unable to undergo the training unless the Government of Mysore are pleased to help me up with a monthly scholar ship for the time I spend at the workshop -

I therefore beg to request that you will be good enough to place my case before the Governm of Mysore and obtain for me a scholarship for the space of 2 years during which time, I mean to finish my training as a mechanical Engineer

For which act of kindness I will be feel - ingly obliged

I beg to remain
Sir
Your most obedient Ser
